## Sizing Chart

To determine your child's correct size, measure each of their feet in CM measurement. Remember one foot can be bigger than the other so it's important to measure both feet and always base the measurement off the larger foot.

Please use this as a guide only and keep in mind that your child's foot continues to grow so going up a size can allow for this.

| MEASUREMENT <br> GM | EU | UK | US |
| :---: | :---: | :---: | :---: |
| $13.5-15.0$ | 24 | 7 | 7.5 |
| $14.5-15.7$ | 25 | 7.5 | 8 |
| $15.0-16.5$ | 26 | 8.5 | 9 |
| $16.0-17.0$ | 28 | 10 | 10.5 |
| $16.5-18.0$ | 29 | 11.5 | 11.5 |
| $17.5-18.70$ | 30 | 9.5 |  |
| $18.0-19.40$ | 27 |  | 12 |

Make sure you print to scale! Double check that our ruler aligns with yours before measuring!

Place your child's heel on this line!
